Dipl.-Ing. Axel Ewert  
Head

## **General provisions**

1. This permit is to be submitted upon request to the relevant supervisory authority or the client before welding work is performed in the form of a certified duplicate or photocopy.
2. This permit must be reproduced or published for publicity or other purposes only in its entirety. The text of publicity material must not contradict this permit.
3. If the person(s) named in this permit for performing the welding supervision tasks leave(s) the company, and if changes to the welding procedure or major parts of the operational equipment required for the welding jobs are made, the acknowledged body must be informed immediately, and may initiate a repeat test at the company if necessary.
4. If doubts regarding the company's suitability arise, the acknowledged body reserves the right to perform unannounced company inspections and tests at any time.
5. This permit can be revoked, amended or changed at any time with immediate effect without compensation, particularly if  
the conditions under which it was granted have changed,  
or  
the conditions of this permit are not complied with.
6. At least two months before the permit expires, another application must be submitted to the acknowledged body if suitability is to continue to be certified.
